DETAILED ACTION

Reissue Applications

1. The reissue oath/declaration filed with this application is defective because it fails to identify at least one error which is relied upon to support the reissue application. See 37 CFR 1.175(a)(1) and MPEP § 1414.
2. The reissue oath/declaration filed with this application is defective because the error which is relied upon to support the reissue application is not an error upon which a reissue can be based. See 37 CFR 1.175(a)(1) and MPEP § 1414.

The error is still not properly recited. What specifically was the error in the patent claims? Listing what claim 1 included and what new claim 6 includes does not suffice. A new declaration needs to be filed that clearly provided specifics as to what the error was in claim 1. The declaration needs to say what is there that is not needed, or what is missing, or what is there that needs to be replaced with something else, all in terms of the claim language.

3. Claims 1-10 are rejected as being based upon a defective reissue declaration under 35 U.S.C. 251 as set forth above. See 37 CFR 1.175.

The nature of the defect(s) in the declaration is set forth in the discussion above in this Office action.
